BUSINESS PROFILE

Pet Biometrics Business

In-home preventative health assessments for dogs and cats in Adelaide's eastern suburbs.

LOCATION	ENTITY	INDUSTRY
Adelaide, SA	**Sole trader (existing ABN)**	**Pet health services**

STATUS
Pre-launch

OVERVIEW

What the business does

A mobile preventative health service that sends a registered veterinarian to pet owners' homes to conduct comprehensive health assessments — including 60+ biomarker blood panels, physical examinations, and urine/stool analysis — then delivers a personalised health report with ongoing care recommendations.

> **Core proposition:** Catch health problems in dogs and cats before symptoms appear — saving pets' lives and owners thousands in emergency treatment costs.

Service area	Adelaide's eastern suburbs — Burnside, Unley, Norwood, Toorak Gardens, Hyde Park, and surrounds
Animals	Dogs and cats, all breeds and ages
Delivery model	In-home visits by a contracted registered SA veterinarian
Visit duration	45–60 minutes per assessment
Results turnaround	72 hours — includes personalised report + vet telehealth review
Brand direction	Warm, human, Hooman-inspired — centres the bond between owner and pet, not the clinical process

SERVICES & PRICING

What we offer

SERVICE	PRICE	DESCRIPTION
Comprehensive Health Assessment	**$650**	In-home vet visit, 60+ biomarker blood panel, physical exam, urine & stool analysis, personalised report, telehealth review, care plan
Annual Wellness Membership	**$249/yr**	Discounted follow-up assessment, quarterly check-in, priority booking, ongoing health tracking
Targeted Follow-up Panel	**$350**	Focused re-test of flagged biomarkers from initial assessment
Condition-Specific Protocols	**$150–$300**	Specialised panels for kidney, thyroid, diabetes, senior wellness, or breed-specific risks

Average gross margin: ~54% — Lab costs ~$200 per full panel, vet contractor fee ~$100 per visit. Primary service grosses ~$350 per assessment.

TARGET MARKET

Who we serve

250K	180K	150K	$400–800
DOGS IN ADELAIDE	CATS IN ADELAIDE	HOUSEHOLDS W/ PETS	ANNUAL PET SPEND

Primary target: pet owners in Adelaide's affluent eastern suburbs who treat their pet as a family member, have disposable income, and are proactive about health and wellbeing.

Burnside · Unley · Norwood · Toorak Gardens · Hyde Park · Dogs & cats · Ages 3+ · Premium pet owners

Customer profile

- Considers their pet a genuine family member
- Household income $100K+
- 35–65 age range
- Already spends on premium pet food, grooming, or insurance
- Would rather prevent than react

Why they buy

- Peace of mind — knowing what's happening inside
- Convenience — no clinic visit, comes to them
- Depth — 60+ biomarkers vs a 10-minute annual check
- Cost avoidance — $650 now vs $5K–$15K later
- Emotional bond — they'd do anything for their pet

FINANCIAL SUMMARY

Unit economics & projections

$9.3K	$280K	$120K	~43%
STARTUP COST	YEAR 1 REVENUE	YEAR 1 PROFIT	NET MARGIN

	YEAR 1	YEAR 2	YEAR 3
Revenue	**$280K**	**$420K**	**$560K**
Profit	$120K	$178K	$232K
Visits/week	8	12	16

Startup costs breakdown

ITEM	COST
Business name registration	$39
Professional indemnity & public liability insurance	$2,000
Diagnostic equipment & supplies	$2,100
Marketing launch (branding, cards, initial ads)	$1,200
Cash buffer (working capital)	$4,000
Total	**$9,339**

Key assumption: Owner builds all digital assets (website, app, marketing materials) in-house via existing design agency. Vet partner uses their own

vehicle. Business operates under existing ABN.

OPERATIONS

How it runs

Team	Owner (business, marketing, digital) + 1 contracted registered SA veterinarian
Scheduling	Online booking via Calendly, confirmed by email. Morning, afternoon, and weekend slots.
Lab partner	Accredited veterinary pathology lab (IDEXX / Vetpath). Samples collected in-home, couriered same day.
Reports	Personalised health report generated from lab results + vet notes. Delivered digitally within 72 hours.
Follow-up	Telehealth video call with the vet to walk through results and care plan. Included in base price.
Technology	Custom client app (health dashboard, pet profiles, results history). Built and maintained by owner.
Annual costs	Insurance $2,000 + miscellaneous $2,400 = $4,400 fixed annually

COMPETITIVE POSITION

Why this is different

vs. Traditional vets

- 60+ biomarkers vs surface-level exam
- In-home vs stressful clinic visit
- 45–60 min vs 10-min appointment
- Preventative focus vs reactive treatment
- Personalised report vs verbal summary

vs. Hugo Health (Sydney)

- Adelaide-local vs Sydney-based
- Dogs AND cats vs dogs only
- Lean small business vs VC-funded startup
- Warm, human brand vs tech aesthetic
- Profitable from Year 1 vs burning runway

Brand white space: Australian pet health is split between playful/cute brands and tech/startup brands. There's a clear gap for warm, restrained, Aesop-like premium — a brand that centres the human-pet bond.

GO-TO-MARKET

Launch strategy

🧪 **Phase 0 — Validate ($900):**	Run a Facebook/Instagram ad campaign to a landing page in eastern suburbs. Target: 10 bookings to prove demand before committing.
🤝 **Phase 1 — Vet partner:**	Secure a contracted SA-registered veterinarian. Priority targets: Adelaide Home Vet, Pet Doctor Vet — both have service overlap and geographic fit.
🏠 **Phase 2 — Foundation (months 1–3):**	Launch with 6–8 visits per week in Burnside, Unley, Norwood. Referral program, local vet partnerships, pet-friendly venue presence.
📈 **Phase 3 — Expansion (months 4–8):**	Grow to 10–12 visits per week. Add Annual Wellness Membership. SEO, Google Ads, social content.
🚀 **Phase 4 — Growth (months 9–12):**	Expand service area. Second vet contractor if demand warrants. Target: 16 visits/week by end of Year 1.

KEY RISKS

Risks & mitigations

RISK	MITIGATION
Vet recruitment	Approach mobile/locum vets already set up for home visits. Offer flexible schedule + competitive per-visit rate.
Low initial demand	Validate with $900 MVP ad test before committing startup costs. Pivot or kill fast.
Price sensitivity	$650 is within the $400–$800 range Australians already spend annually on pet care. Frame as prevention vs $5K–$15K emergency.
Regulatory	All vet work performed by registered SA practitioners. Business does not provide veterinary advice — it facilitates access.
Hugo enters Adelaide	Hugo is dogs-only, VC-funded, and focused on Sydney/Melbourne. Adelaide market is too small for their model. Local trust is the moat.

BRAND DIRECTION

How it looks and sounds

Tone of voice	Warm, conversational, emotionally honest. Speaks to the bond — "they'd do anything for you." Australian but not bogan. Casual but credible.
Visual style	Hooman-inspired: bold rounded typography, warm orange + cream palette, playful-but-premium illustration cards, generous whitespace
Typography	Fraunces (serif, headlines) + DM Sans (sans-serif, body). Optical sizing for warmth.
Colours	Warm orange #E8632B (primary), cream #FDF8F3 (background), sage #3D6B4F (secondary), charcoal #1A1614 (text)
Tagline	*Because they'd do it for you.*
Name status	Final name TBC. Short, warm, memorable. 8 candidates shortlisted: Sage, Wren, Elm, Bower, Koda, Sera, Hazel, Birch.
